SOFTWARE ENGINEERING LAB

Experiment No. 1

Preparation of Software Requirements Specification (SRS) for a Library Management System

Name	_____	Roll No.	_____
Class/Section	_____	Date	_____

1. Aim

2. Problem Statement

3. Software Requirements Specification (SRS)

3.1 Purpose

Write the purpose of the proposed Library Management System.

_____

_____

3.2 Scope

Describe the major functions included within the scope of the system.

_____

_____

_____

3.3 Stakeholders / User Classes

S. No.	Stakeholder / User	Role
1		
2		
3		
4		

3.4 Assumptions

1. _____

2. _____

3. _____

4. Functional Requirements

Identify at least 8 functional requirements. Write each as a clear statement using “The system shall …”.

ID	Functional Requirement	Priority
FR-01	The system shall	High / Medium / Low
FR-02	The system shall	High / Medium / Low
FR-03	The system shall	High / Medium / Low
FR-04	The system shall	High / Medium / Low
FR-05	The system shall	High / Medium / Low
FR-06	The system shall	High / Medium / Low
FR-07	The system shall	High / Medium / Low
FR-08	The system shall	High / Medium / Low

5. Non-Functional Requirements

Identify at least 4 non-functional requirements related to performance, security, usability, reliability, etc.

ID	Category	Non-Functional Requirement
NFR-01	Performance	
NFR-02	Security	
NFR-03	Usability	
NFR-04	Reliability / Backup	

6. Constraints / Business Rules

Identify at least 4 constraints or business rules.

ID	Constraint / Business Rule
BR-01	
BR-02	
BR-03	
BR-04	

7. External Interface Requirements

7.1 User Interface

Mention the major screens/interfaces required in the system (e.g., Login, Search Book, Issue/Return).

_____

_____

7.2 Input Requirements

S. No.	Input	Description
1		
2		
3		
4		

7.3 Output Requirements

S. No.	Output	Description
1		
2		
3		

S. No.	Output	Description
4		

8. Requirement Review

1. Are all requirements clear and understandable?

_____

2. Are any requirements contradictory?

_____

3. Are the requirements testable? Give one example.

_____

9. Result

Write 2–3 lines describing what was accomplished in this experiment.

_____
_____
_____
